

# International project management

Coromatic designs and builds prefabricated datacenters and tailor made solutions for emergency power and power plants. Over the last 15 years Coromatic have delivered more than 1 000 datacenters including critical infrastructure.

## More than 50 years of experience

Headquartered in Stockholm, Sweden, Coromatic offers solutions designed and built with Nordic quality. However, our geographic presence is much wider than that.

Coromatic recently built data centers in Europe, Africa, Asia, Middle East and Latin America. This experience enables us to fully understand the customers' different needs.

The Coromatic team has a proven track record of deploying high quality turnkey projects including civil work worldwide.

With more than 50 years of experience in the field of backup power supply, Coromatic offers emergency power solutions and power plants for any type of business.

Every solution is tailor-made to secure your IT infrastructure as well other critical functions in the event of an unexpected power outage.

## Coromatic delivers the three major stages of a project:

**Before:** customized design, site preparation, permits

**During:** full turn-key delivery worldwide

**After:** maintenance and support when solution is in operation

Coromatic has its own production facilities in Sweden and Denmark. Combined with its internationally skilled team, it is the foundation for high quality solutions and total project control from start to finish.

### Prefabricated datacenter buildings

- Unlimited scalability and flexibility
- Guaranteed on time
- Guaranteed on budget
- Guaranteed with product warranty

### Customized gensets and power plants

- Up to 3300 kVA
- Super-silent option: 58 dBA/3m
- Optimized for each application and market
